

VIRIDAD

To whom it may concern

Munich, 24 February 2021

Pricing Schedule

The following provides you with an overview of the prices applicable during calendar year 2021 for the services offered by and managed through VIRIDAD.

VIRIDAD Taxonomy Tool:

As long as the VIRIDAD Taxonomy Tool is still in beta version and under development, we offer its usage free of charge. We expect to finalise development during the first quarter of 2021. As of then, for making use of the final VIRIDAD Taxonomy Tool, an annual subscription possibility will exist. It is limited to one user and costs **179€** (excl. taxes)/user/year. Registration form can be requested upon enquiry to: contact@viridad.eu

Taxonomy Quick-Check:

After receiving a sufficient level of information and documentation a Taxonomy Quick-Check will be performed within 3 working days. The deliverable will be a standardized high-level report on the likely eligibility of the assessed undertaking. It is provided by VIRIDAD, implemented by OMNIA GmbH at a standardized one-off price of **3,000€**, excl. taxes.

Clients with a continuous need for Taxonomy Quick-Check are offered package deals (to be used within in a period of two years with upfront payment and without refunding):

- Buy a package of 10 quick-checks, receive a discount of 13,3%
(each check will cost **2,600€**)
- Buy a package of 100 quick-checks, receive a discount of 26,6%
(each check will cost **2,200€**)

Travel is not expected and covered by these costs. Special arrangements can be sought upon enquiry to: contact@viridad.eu

Sustainable Finance Due Diligence Assessment:

For the most comprehensive form of assessments, VIRIDAD is only acting as an intermediary between the client and the pre-qualified expert. In addition to that, it ensures the application of our standardized assessment methodology and conducts a quality assurance of the final deliverables by the expert.

For each undertaking which requires the performance of a Sustainable Finance Due Diligence Assessment, VIRIDAD is conducting an offer request process from pre-qualified experts and manages the submission to the client.

For these services, VIRIDAD charges 20% of the total net amount chargeable by the expert to the client. The services of performing the Sustainable Finance Due Diligence Assessments are provided by our pre-qualified experts, which apply our standardized methodology for the assessment. If a Taxonomy Quick-Check for the same undertaking was not conclusive and the outcome required a more thorough analysis through a Sustainable Finance Due Diligence Assessment, 1.000€ of the costs of the Quick-Check will be counted against the price of the Sustainable Finance Due Diligence Assessment for the same project.

In order to trigger the above-mentioned process please fill in our request form on www.viridad.eu

Regulatory Advice

In order to provide you with an individual quote for your project needs and for all consulting and advisory services covering regulatory issues related to Taxonomy and other sustainability topics, please send an enquiry to contact@viridad.eu

Best regards,

Andreas Pointvogl
